

Hospital Play Specialists' Registration Council (HPSRC)

Report to the AGM of the Hospital Play Specialists' Assn of Aotearoa/New Zealand on 7th March 2020

Prepared by Allana Bunting, Diane Havler, Robyn Maria
25/2/2020

This year we have farewelled Robyn Maria from the Registration Council. Robyn gave above and beyond what was required of her on the Council and we miss her dedication and expertise.

We have, however, welcomed Philippa French to the Council and look forward to getting to know Philippa and working with her as we move the Council forward in 2020 and beyond. We have also welcomed Carol Bolton as our External Advisor and we are very grateful to have Carol on board with her experience, knowledge and professionalism, to support us in our role as Registration Council members.

Over 2019 we had 2 applications approved for registration and 12 applications approved for renewal of registration. At present there are 36 registered hospital play specialists in New Zealand and 8 due to reapply for renewal of registration in 2020.

Achievements.

Over the past year we have sought IT help to sort our gmail and to move towards storing all our documents in google docs so that all Council members have access to these documents. This has been a time consuming and challenging project as we navigate a system new to us all.

We have also spent time reviewing and preparing documents for the HPSA website.

We are in the process of developing an orientation pack for newly appointed HPSRC members.

Moving forward.

We aim to review our Operational plan and develop a plan for 2020-2021.

We will be working towards refining and completing the Registration tab on the HPSA website.

We will complete our review of checklists and assessment sheets.

We will finalize the orientation pack for new members of the Registration Council, including the development of a spreadsheet of roles and allocated tasks within the Council.

We are presenting at the HPSA Conference on the registration process.

Presented by Allana Bunting
