

There are some proposed changes to the ECE Regulation's that may impact hospital based services - particularly related to :

- strengthening person responsible requirement
- and regulating for 80% qualified teachers.

Please take a moment to read the information below, if you can join the online MoE hui on Thursday evening that would be great as many of your questions may be answered there. You will need to click the link below to Register.

The HPSAANZ will organise a zoom meeting towards the end of the month for open discussion about the changes, any unforeseen implications or questions within our group so you have time to check in before the feedback deadline. It is very important that feedback is provided to the Ministry from the hospital based ECE perspective.
